## PREFACE

"Current Aviation Statistics" is prepared periodically to provide a summary of current aviation statistical information.

This report is prepared in the Office of Management Systems, Information and Statistics Division, Information Operations Branch, by George E. Thompson.

## TERMINAL AREA RELATIONSHIPS

The current study of terminal area airport operations encompasses FY 1976 data for 415 airports at which FAA traffic control towers operated the entire twelve months period. These are presented in two primary groups: Air Commerce Airports, and General Aviation Airports.

Each tower is requested to report the peak daily traffic count during the previous twelve months for air carrier, itinerant (including air carrier), total aircraft (including local) and instrument operations. Peak counts for the various categories need not occur on the same day. These peak days can be accurately identified from the daily traffic counts recorded on FAA Form 7230-1.

Busy hour estimates are obtained from periodic counts 60 minutes in duration. These counts are made during known high activity periods of each traffic category. From this sample, tower personnel select a count which is representative of daily busy hour activity for each category.

The tables contain traffic estimates for each airport at which an air traffic control tower operated during all of FY 1976. Provided with peak day and busy hour are average day and hour operations computed from annual operations. Measures of peaking characteristics are given by the ratios of peak day to average day and busy hour to average hour for individual airports and airport size groups.

## TABLE OF CONTENTS

### TERMINAL AREA RELATIONSHIPS

<u>TABLE</u>	<u>PAGE</u>
1. Air Carrier Aircraft Operations at Air Commerce Airports ...	1
2. Itinerant Aircraft Operations at Air Commerce Airports .....	11
3. Total Aircraft Operations at Air Commerce Airports .....	22
4. Total Instrument Operations at Air Commerce Airports .....	32
5. Itinerant Aircraft Operations at General Aviation Airports .	43
6. Total Aircraft Operations at General Aviation Airports .....	47
7. Total Instrument Operations at General Aviation Airports ...	51
